St. Petersburg, FL | (813) 922-5237 | maryrose.puglisi@gmail.com | www.rosepuglisi.com | linkedin.com/in/maryrose-puglisi

Senior product manager who takes data products from zero to market, rescues failing ones, and directs engineering teams day to day. Five years owning roadmaps, strategy, and pricing for tourism, destination, and government SaaS used by 500+ destination organizations and 1,000+ government clients. AI-first operator who uses LLM tools connected to work systems to move faster, backed by an earlier career in convention sales and event operations.

EXPERIENCE

Senior Product Manager, Zartico 2026

- Owned Zartico Media Attribution (ZMA), the product housing the company's international and domestic media attribution pipelines, pairing third-party tracking pixels with visitor intelligence.
- Launched ZMA's first-of-its-kind international pipeline with proprietary bot filtering and U.K. privacy compliance; adopted by 3 customers within first week of sales rollout (September 2026)
- Launched a ZMA domestic pipeline for state DMOs and CVBs; scoped spend-based attribution for geo-privacy states.
- Redesigned Campaign Hub, used by ~40 agencies across ~200 campaigns, adding analytics for campaign performance, pixel fires, impression usage, and user journeys.
- Set campaign wrap report standards, including ROX vs ROI framing, and led company-wide product education.
- Built an AI-first workflow with Claude and MCP connectors to automate customer insight synthesis, code audits, Jira ticket creation, gap analysis, and competitor tracking.

Product and Strategy Consultant (Part-Time), Valence 2024–Present

- Advise on UI/UX, data storage, product strategy, and roadmap priorities for all-in-one gym management software built for independent operators, spanning billing, scheduling, payroll, POS, and member CRM.

Product Manager, Granicus (formerly Simpleview) 2021–2025

- Directed an offshore engineering team's daily work and feedback; interviewed and onboarded new hires.

GovDelivery: 1,000+ government clients, 8,000+ users

- Restored full FedRAMP ATO from near non-compliance as compliance DRI for FedRAMP, GDPR, and WCAG.
- Led event logging and journey tracking for 1M+ events/day; formalized SOPs that cut planning errors ~30% across two PIs.

Book › Direct and CMS Suite: 500 to 700 destination organizations

- Rescued Book › Direct with no documentation and a one-person engineering team; re-architected it around live rates APIs and repackaged it as an add-on, reversing churn to net growth across 250+ clients.
- Drove \$50K+ referral revenue in 30 days and 5x clicks via Viator, Yelp, Ticketmaster, and Tripadvisor integrations.
- Led the AWS to Google Cloud migration (~15% infrastructure savings); shipped 10+ real-time client dashboards.

SaaS Implementation Project Manager, Personify 2020–2021

- Implemented event SaaS for 200 to 300 enterprise clients, owning API setup and launch; built self-serve exhibitor sites.

Sales Manager, GES 2019–2020

- Sold and planned citywide trade shows for 10,000+ attendees: pricing, contracts, sponsorship signage, and logistics.

Sales Manager, Baltimore Convention Center 2017–2019

- Ran national sales, RFPs, site visits, and FAM tours; helped sign a three-year contract worth \$5M in impact.

Operations Coordinator, Event Services, Loyola University Maryland 2012–2016

- Led event teams of 20 to 30 across setup, A/V, CAD floor plans, and summer conference housing.
